## **WASATCH BEHAVIORAL HEALTH SPECIAL SERVICE DISTRICT**

---

### **AUTHORITY**

State law assigns the responsibility of administering local behavioral health services to county government. Wasatch Behavioral Health is a Special Service District of Utah County, governed by the oversight of the Utah County Commissioners, who serve as the agency's Authority Board.

### **ABOUT US**

Established in 1967, Wasatch Behavioral Health (WBH) is a public comprehensive behavioral health center providing a variety of services designed to meet the needs of children, youth, adults and their families throughout Utah and Wasatch Counties.

WBH is staffed by licensed professionals who specialize in mental health and substance use recovery. These professionals include psychiatrists, APRNs, nurses, clinical psychologists, marriage and family therapists, clinical social workers, clinical mental health counselors, substance use disorder counselors, adult and youth case managers, residential services staff, peer support specialists, family resource facilitators, parent mentors, care team assistants and a comprehensive administrative business staff.

### **REPORT TO THE COMMUNITY**

As the elected officials are directly responsible for the provision of community behavioral health services in Utah County, the Authority Board takes its responsibility to the residents and the clientele of Wasatch Behavioral Health very seriously.

Wasatch Behavioral Health is recognized among behavioral health centers in Utah for its efficient operations and maximization of services to clientele for the money expended. We are proud to provide a full array of behavioral health services to Medicaid eligible residents of Utah and Wasatch Counties.

Vantage Point, New Vista, Aspire Academy Youth Services, Early Psychosis program, Jail Transition Program, School Based Services, and Mobile Crisis Outreach Team expand the provided services to a broader population.

We look forward to continuing and expanding our excellence in service provision to the residents of Utah and Wasatch Counties.

# MESSAGE FROM THE CEO

We present the annual report of Wasatch Behavioral Health (WBH) to our Board of County Commissioners, our local and state government officials, allied agencies, and the citizens of Utah and Wasatch County.

We deeply appreciate the many community partnerships with allied agencies, housing authorities, law enforcement, and other treatment providers. Utah County and WBH are well known for their collaborative community and excellent integration of services.

Like many other industries, the healthcare field has faced significant workforce challenges. Clinicians especially (therapists and psychologists), have been very difficult to recruit. In order to address this critical need, Wasatch Behavioral Health (WBH) rolled out an innovative loan forgiveness program. WBH pays the tuition for qualified staff to obtain a master's degree in exchange for a commitment to work as a therapist for WBH for a set period of time after graduation. At this point, over 30 staff have benefitted from this program.

Other program developments have focused on enhancing services and providing increased access. Our Therapy Connect program (Therapy on demand via telehealth) has been brought up to scale, providing increased access and service delivery options to clients.

Vantage Point North, a youth receiving center located in American Fork at the Utah State Developmental Center (USDC) campus, was opened in July of 2022. The 12-bed center has been a collaborative venture of the Juvenile Justice Youth Services (JJYS) and WBH. The dedicated building at the USDC has been re-purposed, remodeled and modernized to meet the new purpose. We are very grateful for the collaboration enabling us to increase service capacity and access in Northern Utah County.

Our Foothill Substance Use Social Detox and Residential facility is currently undergoing a renovation and expansion. A generous anonymous donation enabled us to start adding a commercial kitchen and expand capacity by 9 beds. We anticipate that this project will be completed towards the beginning of 2023.

Further, facility related improvements include the purchase of a large office building in Orem to allow us to vacate the county buildings that are needed for county services.

services."**

# MESSAGE FROM THE CEO

With the assistance of special funding allocations from the state, we were able to purchase a duplex and condominium for client housing. We are grateful for this funding opportunity .

Our 24/7 Receiving Center is now located in a remodeled and expanded building offering up to 16 crisis “recliners.” A 16-bed crisis stabilization unit is now operational next door to the Receiving Center.

Administratively, we created a fourth services division. In addition to our Substance Use Disorder Services Division, our Crisis Services Division, our Clinical and Community Services Division, we now also have a Clinical Compliance and Performance Division. This new addition focuses on improving client outcomes and monitoring clinical services as well as corporate compliance related issues.

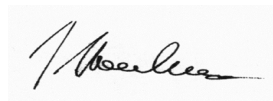

Goals for this upcoming year include occupying the newly purchased office building in Orem as well as acquisition of some land in Eagle Mountain for future development and expansion.

The currently planned expansion of our Payson facility is slated to begin in 2023. Following the successful model of our Westpark Family Clinic, Mountainlands Community Health Center will co-locate with us and offer a full service on-site pharmacy for clients and the community.

Clinically, we hope to develop a second Mobile Crisis Outreach Team (MCOT) in Utah County and to bring the Wasatch/Summit County MCOT team to operate on a 24/7 basis.

As we look forward to another successful year, we continue to increase capacity and enhance outcomes for our clients and the community.

Sincerely,

Juergen E. Korbanka, Ph.D.

# CRISIS & INTENSIVE SERVICES DIVISION

## **Division Summary:**

Providing interventions for those in crisis or with acute behavioral health needs. This includes mobile outreach services, crisis shelter care, residential treatment programs for youth, and a pre-school for children with autism / mental health needs. In addition, we provide full & partial day treatment programs for children and youth.

## **Quick Facts**

- ◆ 219 employees in the division
- ◆ 2547 unduplicated clients were served
- ◆ 133,556 hours of service were provided from the CIS Division
- ◆ At least 2000 potential hospitalization admissions were prevented by CIS programs
- ◆ WBH has a record number of graduate interns (45). That is twice as many as last year

## **Client Success Story:**

We had a client that we were able to set up with Sober Living & then in transitional housing. The client came to the Receiving Center after being placed in Transitional Housing to thank everyone and reported that he got employment. He reported that he was, “super happy with how [his] work is going & is hopeful to get hired on fulltime.” Staff noted that this was the happiest they had ever seen him. The client self-reported that he is the happiest he’s ever been & is saving money so he can move into his own apartment.

# CLINICAL & COMMUNITY SERVICES DIVISION

## Division Summary:

Provides Family Outpatient Care to individuals struggling with a primary mental health condition in Utah and Wasatch Counties. Services include psychiatry, psychotherapy, case management, and peer support that are delivered in the clinic, in schools and in client homes. Services are available in person or via telehealth. Our Clubhouse, Housing, and Representative Payee Services provide specialty care to clients who qualify.

## Quick Facts

- ◆ 9,821 unduplicated clients were served
- ◆ 473,097 hours of service were provided by the CCS Division; averaging 39,425 units of service every month
- ◆ CCS applied for and was awarded a grant that allowed us to purchase a local duplex and condo to house our most acute clients on the BRIDGE team where wrap around services are provided at the clients home.
- ◆ Combined the Wasatch Wellness Run with the Runtastic Nebo Marathon/Half as the Charity of Choice
- ◆ Expanded School Based Services and established it as a separate department

## Client Success Story

Feedback from a client who brought her family to us for services:

*"Thank you doesn't adequately express how I feel about the priceless gift of healing for my family, as I feel hostility being replaced by peace."*

# CLINICAL COMPLIANCE & PERFORMANCE DIVISION

## **Division Summary:**

The Corporate Compliance Division was newly formed in May of 2022. Though small in size, it works with other departments and divisions across Wasatch Behavioral Health to ensure the center’s compliance with laws and regulations, maintain and provide access to medical records, improve clinical service quality, and to develop innovative tools and services with the ultimate goal of efficiently providing the highest quality of services to WBH clients while meeting all regulatory requirements.

## **Quick Facts**

- ◆ New division established in May 2022
- ◆ Developed & rolled out the Clinical Support & Improvement Data (CSID) dashboard
- ◆ Developed and introduced Therapy Connect— automated on-demand, virtual/in-person therapy platform

## **Therapy Connect Success Story**

Therapy Connect Clinician: “My very first therapy connect client started the session by telling me that she needed to go to the hospital. She had been through a number of stressful experiences recently, and expressed that she felt like she couldn’t handle it and didn’t know what to do. The appointment admittedly went a bit longer than I had scheduled for it, but by the end of the session she had been able to develop a safety plan, and we had put together a plan to take the next few steps to deal with her concerns in a productive way. She used therapy connect a few more times to get some additional help and support before she was able to get back in with her regular therapist, but owing at least partially to the availability of therapy connect, she was able to avoid a trip to the hospital (or at least the ER) and was able to take some concrete steps to improve her situation.”

## **Programs**

- ◆ Clinical Performance
- ◆ Clinical Compliance
- ◆ Contracts and Grants
- ◆ Exceptions Committee
